

# BEE HOUSE GUIDELINES

## FOR ACCURATE BEE HOUSE PLACEMENT

1. Facing south in a location which receives morning sun.
2. Can be placed on the ground, at eye level, or anywhere in between. It can even be placed above eye level.
3. It should be placed in a low traffic area, near a pollinator garden.
4. It should be placed in an area which can provide the house some shelter from wind and rain (i.e. under a tree, under the overhang of a shed, etc.)
